

# ROBO LIONS SPONSORSHIP GUIDE

---

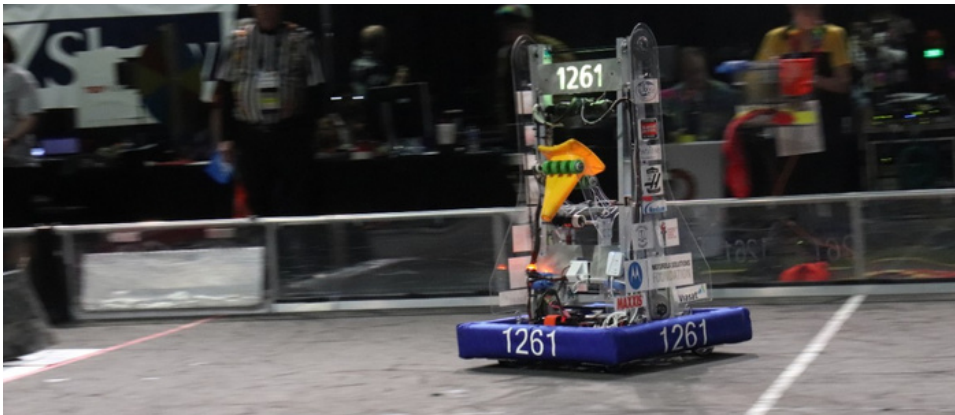

---

2023 - 2024

# OUR MISSION

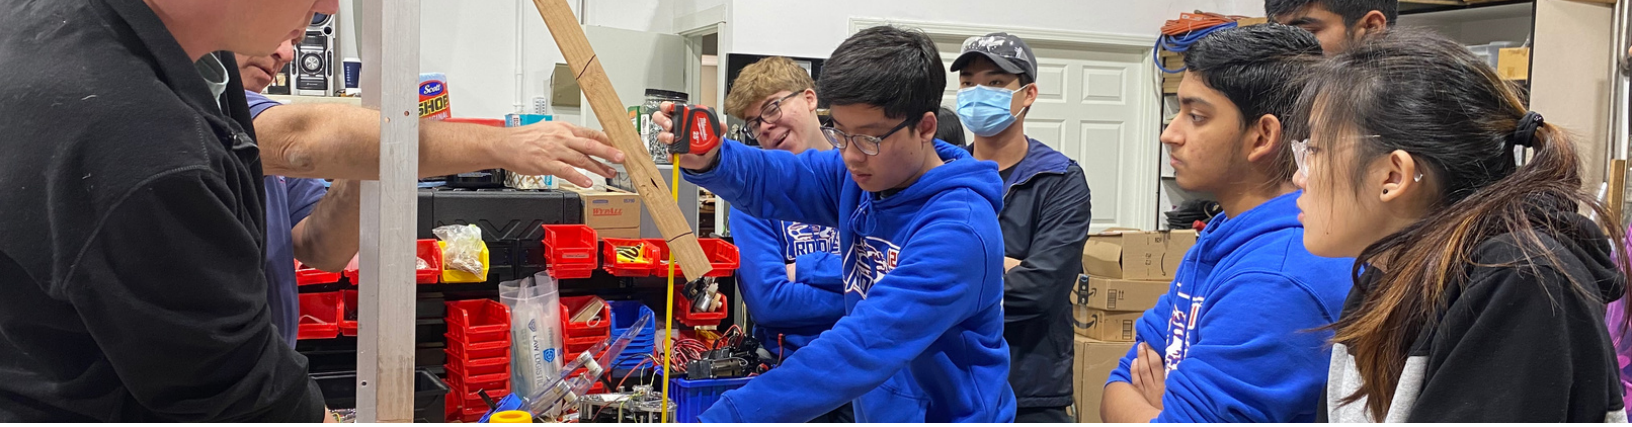

Team 1261, the Robo Lions, is an award-winning, student-inspired STEM based robotics organization at Peachtree Ridge High School. Founded in 2004, the Robo Lions program was instrumental in the original STEM certification & accreditation of Peachtree Ridge, allowing for the school to be the first high school in the state of Georgia to be recognized with both awards.

The Robo Lions are avid competitors in FIRST Robotics Competition. FIRST (For Inspiration and Recognition of Science and Technology) embodies the interest of spreading a passion for STEM-based learning throughout the world.

Students learn diverse skills through Team 1261's robotics program. This includes programming in Java, computer-aided design, and hands-on engineering principles. Because of this, the team has grown into a multi-faceted organization of future leaders, encompassing scientists, engineers, business professionals, and more.

# THE 2023 SEASON

---

## **Gwinnett District Event**

Team 1261 was Rank 9 during the first qualifying event in Gwinnett County. Through fierce competition, the Robo Lions won the Innovation in Control Award.

## **Macon District Event**

At the second qualifier in Macon, the Robo Lions ranked first overall and became event finalists. The team was also awarded the Autonomous Award.

## **District Championships**

After qualifying for State Championships, Team 1261 ranked 13th out of 51 teams and became a member of the 7th alliance. Team 1261 were state semi-finalists.

# HIGHLIGHTS

At its core, Team 1261's goal is to educate high schoolers in STEM while emphasizing community involvement and competition within FIRST. The experiences gained in being an active member of the team have led students into careers such as engineering, computer science, biomedical and additional healthcare fields.

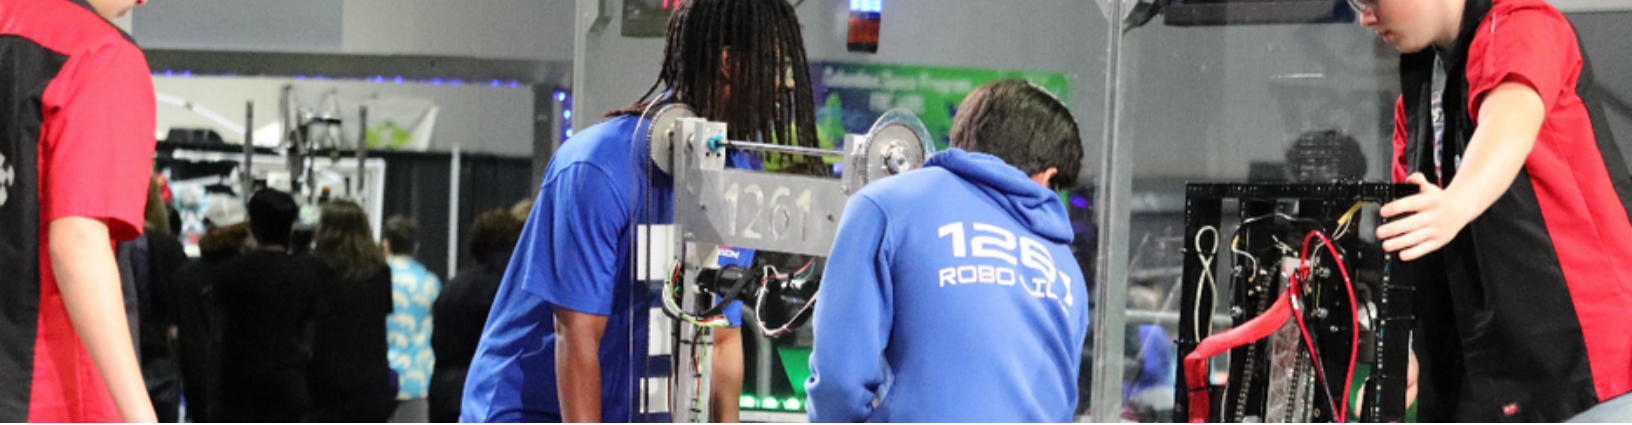

Studies have shown that FIRST participants are:

- Four times as likely to pursue an engineering-related career
- Twice as likely to pursue a career in science and/or technology
- More than twice as likely to volunteer in their communities

The Robo Lions are involved in cluster schools and the community through STEM programs, parades, and sports activities. Students are responsible for mentoring cluster elementary and middle schools through First Lego League, focusing on basic programming, game strategy, and organizational skills.

As a non-profit 501(c)(3) organization, the team heavily depends on the support of the community and local corporations. Your support can be fulfilled through any of the following: donation of equipment, services, funds, or time as a team mentor. Donations may be tax-deductible and each tier of sponsorship is entitled to the benefits listed on the following page.

# SPONSORSHIP TIERS

Up to \$499

## Friend of the Team

- Invitation to events
- Name on website
- Recognition letter

\$500 - \$999

## Bronze

- All "Friend of the Team" Benefits
- Small logo on website
- Small logo on pit/event banner

\$1000 - \$2,499

## Silver

- All "Friend of the Team" Benefits
- Medium logo on website
- Medium logo on pit/event banner
- Small logo on robot
- Team thank you presentation & robot demonstration

\$2,500 - \$4,999

## Gold

- All "Friend of the Team" Benefits
- Large logo on website
- Medium logo on pit/event banner
- Medium logo on team robot
- Small logo on team t-shirt
- 5x7 plaque (perpetual or once)
- Team thank you presentation & robot demonstration

\$5,000+

## Platinum

- All "Friend of the Team" Benefits
- Extra large logo on website
- Large logo on pit/event banner
- Large logo on team robot
- Large logo on team t-shirt
- 8x10 plaque (perpetual or once)
- Team thank you presentation & robot demonstration
